SUMMARY

Third-year B.E. student in Computer Science and Engineering (AI & ML) at SJC Institute of Technology, with a 9.54 CGPA. Interested in Artificial Intelligence, Machine Learning and Generative AI, with hands-on project experience building practical software solutions. Familiar with Python, Java, web development, RAG concepts and vector databases; eager to learn, collaborate and apply technology to real-world problems.

EDUCATION

SJC Institute of Technology — Expected 2028

B.E. – Computer Science and Engineering (Artificial Intelligence & Machine Learning) — CGPA: 9.54

Pre-University / Class XII – Karnataka — 2024 | 93%

Class X – Karnataka — 2022 | 94%

PROJECTS

- SJC Connect — College transport management platform designed to support role-based access, transport coordination and student journey tracking.
- ReWorth Platform — AI-powered waste identification and value-estimation concept supporting reuse, recycling and responsible disposal decisions.
- AI Emotion Detector & Caretaker — AI project focused on emotion detection and supportive caretaker-oriented assistance.
- ThreatLens — Security-focused project aimed at identifying and understanding potential digital threats.
- Healthcare Prediction AI System — Machine-learning project exploring predictive analysis for healthcare-related data.
- Deforestation Detection from Satellite Images & Emergency AI Agent — AI projects focused on detecting deforestation in satellite imagery and supporting emergency-response assistance.

TECHNICAL SKILLS

- Programming: Python, Java, C, SQL
- Web & Frameworks: React, TypeScript, Django
- AI & Generative AI: AI/ML, Generative AI, Retrieval-Augmented Generation (RAG), Vector Databases

CERTIFICATIONS

- Laser Engraving – Infosys Springboard
- C Programming – Infosys Springboard
- Design Thinking – Infosys Springboard
- Python Essentials – Cisco Networking Academy

ADDITIONAL

Interests: Solving logical puzzles, exploring new places | Experience: Seeking internship opportunities; no formal work experience yet.
